# THE AMERICAN BOARD OF SURGERY

December 30, 2019

Re: Mark Robert Edwards, M.D.

Thank you for your recent inquiry to the American Board of Surgery (ABS) regarding the certification status of the above named surgeon. The specific status of this surgeon with the ABS is listed below.

<b>Surgery</b>	<b>Current Status: Certified</b> <b>Meeting CC Requirements</b>	<b>Certificate</b> <b>Initial Certification Date: March 03, 2008</b> <b>Reverification Date: December 31, 2020</b>
----------------	--	--

THE REVERIFICATION DATE (ABOVE) IS PROVIDED FOR CREDENTIALING PURPOSES.

As part of the ABS's Continuous Certification Program, Board certification is contingent upon meeting the ongoing requirements of the program. Surgeons who were initially certified and/or took the continuous certification assessment after September 2018 are issued certificates with no end dates to certification. For surgeons without an expiration date on their certification(s), annual primary source verification on or immediately after the reverification (annually on December 31) is necessary to accurately determine a surgeon's current certification status.

Please inform us immediately if your information differs from what we have supplied above. If you have questions regarding this information, please contact the ABS office.

Jo Buyske, M.D.  
President and CEO

# Trauma Program Manager

Trauma Program Manager: This person is usually a registered nurse and must show evidence of educational preparation, with a minimum of sixteen (16) hours (internal or external) of trauma related continuing education per year and clinical experience in the care of injured patients.

a. Documentation required:

- i. Trauma Program Manager CV.
- ii. Trauma-related continuing education information from the past twelve (12) months in a spreadsheet format.
- iii. Documentation of attendance to at least three (3) trauma operation meetings. Meetings must be at least one (1) month apart.
- iv. Documentation of attendance to at least three (3) peer review meetings. Meetings must be at least one (1) month apart.

Evidence:

- i. Full CV
- ii. CE in Spreadsheet format
- iii. Copies of sign in rosters to 3 Trauma Operational meetings (TOPI)
- iv. Copies of sign in rosters to 3 Trauma peer review meetings (Trauma PCC)

## **Christine Marie Claborn, RN**

---

### **EDUCATION**

- M.S.N.    **Master of Science in Nursing, University of Indianapolis, May 2016**  
Indianapolis, Indiana  
Focus: Nursing and Health Systems Leadership
- B.S.N.    **Bachelor of Science in Nursing, University of Indianapolis, May 2001**  
Indianapolis Indiana

### **LICENSURE**

**Registered Nurse, Indiana State Board of Nursing. License: 28151337A**

### **CERTIFICATIONS**

**Certified Emergency Nurse, February 2010.**  
**Trauma Certified Registered Nurse, October 2018.**

### **VERIFICATIONS**

- Trauma Nursing Core Course Instructor
- ACLS, PALS, BLS

### **PROFESSIONAL EXPERIENCE**

**Franciscan Health Indianapolis, Indianapolis, IN**  
**Trauma Program Manager**  
December 2014-Current

Responsible for developing, implementing, and maintaining a cost-effective and quality system of care for trauma patients and their families throughout the continuum of care for a facility seeking Level 3 trauma center verification through the American College of Surgeons.

- Developed transfer guidelines across multiple medical disciplines
- Facilitates Trauma Operations Performance Improvement Committee
- Assists with Physician Peer Review
- Member of the Indiana Trauma Network
- Member of the Indiana State Trauma Care Committee Performance Improvement Subcommittee
- Member of the Indiana Injury Prevention Advisory Council (IPAC)
- Responsible for Injury Prevention and Community Outreach education
- Responsible for nursing staff education across the trauma care spectrum
- *Stop the Bleed* instructor and facilitate classes for laypeople in the community

Claborn CV

- Successfully received multiple sources of funding for bleeding control kits, Matter of Balance Master Trainer training
- Facilitator for District 5 Trauma Planning committee
- Active member of the Indiana Fall Coalition
- Assisted in disaster drills in conjunction with Disaster Coordinator
- Responsible for budget, including cost containment
- Evaluate capital purchases

**Franciscan St. Francis Health, Beech Grove and Indianapolis, IN**

**Emergency Department Registered Nurse**

December 2005 – December 2014

Care of patients across all spectrums of life. Worked all areas of emergency department including triage, examination, cardiac monitors, shock/trauma, and behavioral health. Charge RN PRN. Reached Expert status on professional clinical ladder.

- Facilitated committee for successful application for ENA Lantern Award – 2013-2014
- Facilitated Journal Club - 2012-2014
- Active member of Nursing Clinical Practice Council – 2011-2014
- Prepared HFAP documents
- Co-chair of housewide fall prevention committee – 2011-2013
- Chair of CEN committee – 2012
- Staff educator for ED Residency program – 2013-2014
- Staff preceptor 2006-2014
- Relief charge nurse 2007-2014

**Franciscan St. Francis Health, Indianapolis and Mooresville, IN**

**PRN Staff Nurse/ Office Nurse**

2012-2014

PRN work caring for patients after receiving outpatient pain procedures. Cross-trained to care for patient in an ambulatory clinic.

**Franciscan St. Francis Health, Indianapolis, IN**

**Patient Flow Coordinator**

2010-2012

Assisted with development of newly created position to improve patient flow within the emergency department. Coordination of admissions, transfers, and discharges. Position dissolved.

**MedTech College**

**Nursing Instructor**

2010

Part time employment. Classroom instructor for LPN students. Clinical instructor for ASN students. Prepared tests, quizzes, exams. Graded care plans, evaluated student assessment skills, general bedside instruction of students.

Claborn CV

**Center for Special Surgery at the Center for Pain Management\  
Procedure Nurse**

2008-2010

Part time employment. Care of patients pre-procedure, peri-operative, and post-procedure undergoing moderate sedation for outpatient pain procedures.

**Franciscan St. Francis Health, Beech Grove, IN**

**Post Anesthesia Care Staff Nurse**

2002-2005, PRN 2005-2007

Care of immediate post-operative patients with airway, pain control, emergence from anesthesia. Care of patients undergoing special procedures and endoscopy with complications. Relief charge nurse. Monitored bedside glucose and hemoglobin charges.

**Franciscan St. Francis Health, Beech Grove, IN**

**Medical Staff Nurse**

2001-2002

Care of medical patients on an inpatient unit.

**HONORS AND AWARDS**

- Franciscan St. Francis Health 2014 Excellence in Nursing Award Recipient, Exemplary Professional Practice
- Nominee for 2014 ENA Nursing Practice Award

**PROFESSIONAL AFFILIATIONS**

- American Trauma Society 2014-Current
- Emergency Nurses Association 2010-Current
  - Chapter 134 President-Elect 2019
  - Chapter 134 President 2020
- Sigma Theta Tau 2014-2016
- Society of Trauma Nurses 2015-Current
- Trauma Center Association of America – 2015-Current

**GRANTS AND SCHOLARSHIPS**

- Franciscan Health Central Indiana Auxiliary Grant- 2017
- Trauma Center Association of America – *Matter of Balance* Master Trainer -2019

**TEACHING EXPERIENCE**

- Trauma Nursing Core Course Instructor – 2017 – current
- Stop the Bleed Instructor – 2017 - current
- ED Nurse Residency 2013 - current
- Medtech College, LPN Classroom Instruction, Included preparation of tests, quizzes - 2010
- ED RN bedside preceptor – 2006 - 2014

### PRESENTATIONS

- June 21, 2019 Indiana Emergency Nurses Association Annual Symposium – *What degree is right for me?* (panel member)

### VOLUNTEER ACTIVITIES

- Coordinate *Stop the Bleed* volunteers for all of Franciscan Health Central Indiana
- Healthy Sprouts – 2014-2016
- Let's Pretend Hospital – 2001 – 2014
- Pink Ribbon Connection (community non-profit) 2018

# Trauma Registrar

**A Trauma Registrar:** This is someone who abstracts high-quality data into the hospital's trauma registry and works directly with the hospital's trauma team. This position is managed by the Trauma Program Manager.

a. **Documentation required:**

- i. Trauma Registrar CV.
- ii. Trauma Registrar job description.
- iii. Proof of trauma registry training (i.e. may include ISDH training or vendor training).

Evidence:

- i. CV for Carroll and Sorocco
- ii. Job Description for trauma registrar
  - a. Organizational chart
- iii. Trauma registry training
  - a. Carroll
    - i. CAISS pass letter
    - ii. TQIP training
    - iii. ICD-10 training
    - iv. AAAM Certificate
  - b. Sorocco
    - i. ATS completion certificate
    - ii. AAAM Certificate

## MICHAEL CARROLL

## **EDUCATION**

### **Indiana University, Bloomington, IN**

*Master of Public Health*

Honors: Dean's List (2016)

**May 2017**

### **Indiana University, Bloomington, IN**

*Bachelor of Science in Community Health, Minor in Psychology*

Honors: Indiana Founders Scholar 2014, Dean's List (2013, 2014)

**August 2015**

## **PROFESSIONAL EXPERIENCE**

### **Franciscan Health (Trauma Analyst)**

**August 2017 – present**

- Assess daily ED and Inpatient logs to identify patients meeting criteria designated by the ITN and NTDB for Trauma Registry inclusion
- Manage and maintain the hospital's Trauma Registry software, ensuring the routine installment of updates and patches released by the software provider. Troubleshoot any issues that arise within the Trauma Registry and Report Writer software
- Utilize the hospital's Trauma Registry software for data abstraction in accordance to the requirements established by the ITN and NTDB data dictionaries
- Compile abstracted quarterly data into compatible and validated submission files through the Vendor Aggregator to be submitted to the NTDB and Indiana State Trauma Registry
- Construct reports from abstracted data using Report Writer software. Display the extracted data in a clean and logical presentation in Excel
- Utilize built reports for data validation and presenting data requested by the Trauma Program Manager or other medical staff
- Build and imbed additional customized fields into the Trauma Registry to capture data that further assists our trauma PIPS program
- Collaborate with trauma team members to facilitate the development and transition of our hospital to a level 3 trauma center

### **Indiana University Lab (Graduate Research Assistant)**

**May 2016 – June 2017**

- Led research team in the investigation of *Trypanosoma cruzi* and identification of its six discrete phylogenetic typing units within extracted DNA from positive *T. cruzi* tissue samples of sylvatic animals in Texas via PCR and gel electrophoresis
- Performed PCR assays in the laboratory setting regarding cutaneous leishmaniasis diagnosis and vaccine development
- Created templates and entered mass datasets in both English and Spanish via SPSS software regarding the adverse effects of air pollution on cardiovascular health of children and families in Ecuador
- Managed order placements and communication for lab equipment and machinery from various vendors of Indiana University
- Performed data analysis for infectious and chronic disease research
- Directed weekly seminars presented by research assistants and PhD students from our Public Health department
- Assisted a PhD student in managing and organizing their research project concerning indoor air pollution and cardiorespiratory effects among the disadvantaged population in Bloomington, Indiana

## **Consortium of Universities for Global Health (CUGH 2017)**

**April 2017**

### **Publications**

**Leading Author, "Cutaneous Leishmaniasis Knowledge, Attitudes and Practices (KAP) Survey of an Endemic Rainforest Population in Northern Ecuador"**

- Presented on April 8<sup>th</sup> in Washington DC

**Co-Author, "Diagnosis of Cutaneous Leishmaniasis using Microscopic Detection and Molecular-based PCR assay techniques"**

- Presented on April 8<sup>th</sup> in Washington DC

## **IU Health Wipperman Occupational Health Clinic (Intern)**

**May 2015 - August 2015**

- Designed complete health care information files by researching available patient information
- Implemented use of the patient information file with wellness coaches
- Researched and helped update post bloodborne pathogen protocols
- Gained understanding of workplace injury care, post offer physical exams, DOT evaluations, firefighter evaluations, drug and alcohol testing regulations, and ergonomic assessments

## Job Description

<b>Job Title:</b> Trauma Registrar	<b>FLSA Classification:</b> Non-Exempt
<b>Job Code:</b> 201199	<b>Pay Grade:</b>
<b>Version:</b> v.2019.04.10	<b>Job Class:</b> Non Manager
<b>Job Family:</b> Patient Access	<b>Differential Group:</b> Not Eligible

### General Summary:

The Trauma Registrar maintains the trauma registry through the abstraction and submission of patient data from medical records to all applicable trauma agencies in order to meet quality and regulatory requirements. They provide guidance on trauma program activities, including focused chart audits and data validation, trauma outcomes management, trauma education, and trauma data analysis. This position performs a daily review of medical records for all current in-house patients as well as medical record reviews of newly discharged patients and assigns all injuries utilizing the ICD 10 coding system.

### Mission and Philosophy Statement

The health ministry of Franciscan Alliance, Inc. (Franciscan) is a continuation of the healing ministry of Jesus Christ and is carried out in our Franciscan tradition by the Sisters, coworkers, physicians, volunteers, and boards of each institution of the health system. Each Franciscan Alliance coworker acknowledges this corporate health ministry and shares responsibility with other System coworkers for implementation of the Sisters' mission and philosophy in the work performed throughout this corporate ministry.

### Franciscan Values

Our physicians and coworkers follow the values established by our founding congregation, the Sisters of St. Francis of Perpetual Adoration.

#### Respect for life

Each person is treated with such joy, respect, dignity, fairness and compassion that he or she is consciously aware of being loved. Therefore, each coworker:

- Values life
- Engages others with dignity & respect
- Demonstrates active listening
- Honors confidentiality
- Affirms others
- Respects diversity
- Treats people equally

#### Fidelity to our mission

We show loyalty and pride in Franciscan Alliance through joy and respect in ministering to our patients, visitors, and coworkers. Therefore, each coworker:

- Is committed to mission and values
- Is loyal to self, coworkers and those served

- Takes pride in teamwork
- Consistently follows through
- Balances budget
- Is responsible for resources allotted
- Operates equipment respectfully

#### **Compassionate concern**

We provide care and services with openness and concern for the welfare of the individual especially the aged, the poor, and disabled. Therefore, each coworker:

- Is empathic towards others
- Encourages people encountered
- Shows concern for others
- Advocates for the marginalized
- Actively listens
- Honors privacy
- Treats others respectfully
- Considers needs of others
- Values contribution of others
- Utilizes AIDET to improve communications

#### **Joyful service**

The Franciscan presence at Franciscan Alliance expresses itself in joyful availability, compassionate, respectful care and stewardship and loyalty to our mission. Therefore, each coworker:

- Projects a good attitude
- Easily engages others
- Makes people feel special
- Makes others comfortable
- Exceeds expectations
- Lives with hope
- Is not afraid of failure
- Is proactive in addressing concerns
- Is passionate about their work
- Takes pride in appearance
- Is grateful for all things

#### **Christian stewardship**

We justify and fairly allocate human, spiritual, physical and financial resources, respectful of the individual responsive to the needs of society, and consistent with church teachings. Therefore, each coworker:

- Shares talents
- Is dependable
- Anticipates needs
- Is punctual
- Is goal driven
- Is fiscally responsible

### **Essential Job Functions/Competencies**

#### **Records Management**

- Codes injuries, complications, and procedures appropriately and accurately.

#### **Records Management**

- Collaborates with Information Technology computer hardware and software maintenance and backup to assure proper registry function and secure data records.

#### **Reporting**

- Completes the abstraction of the medical record for required data and other data elements.

### Reporting

- Creates reports from abstracted data to maintain the trauma registry and comply with regulatory and quality standards.

### Process Improvement

- Identifies patient cases that meet performance improvement criteria based on predetermined filters.

### Quality Assurance

- Monitors data to ensure validation and interrater reliability.

### Data Entry

- Performs data entry of data points identified after initial chart abstraction.

### Advising

- Provides guidance on trauma program activities including focused chart audits and data validation, trauma outcomes management, trauma education, and trauma data analysis.

## Certifications, Licensures or Registry Requirements

Certifications, Licensures or Registry	Preferred/Required	Qualifiers	State
Certified Specialist In Trauma Registry (CSTR)	Preferred		

## Educational Requirements

Educational Requirements	Specialization/Program of Study/Exceptions	Preferred/Required
Associate's Degree	Health related field	Required
Bachelor's Degree	Health related field	Preferred

## Experience Requirement

Min Years of Experience	Specialization	Required/Preferred
1 year		Required
1 year	ICD coding	Preferred
1 year	AIS/ISS coding	Preferred
1 year	Microsoft Office	Preferred

## Required Knowledge, Skills and Abilities

### Personal Accountability

- Accept personal accountability for deliverables and actions.

### Changing Priorities

- Adapt and respond quickly to changing priorities.

### **Administrative and Clerical**

- Administrative and clerical procedures and systems such as word processing, managing files and records and other office procedures.

---

### **Basic Computer Skills**

- Basic computer software, hardware, and communication devices to perform tasks.

---

### **Basic Math**

- Basic math, such as adding, subtracting, multiplying and dividing.

---

### **Epidemiology**

- Causes and consequences of illness, injuries, and disabilities.

---

### **Diagnostic Procedures**

- Common diagnostic procedures.

---

### **Concentration**

- Concentrate for long periods.

---

### **Simplification**

- Convey complex subject matter, simply.

---

### **Data Entry**

- Data entry.

---

### **Database Software**

- Database software.

---

### **Efficient Work**

- Develop own ways of working effectively and efficiently.

---

### **Written Communication**

- Effectively communicate in writing as appropriate for the needs of the audience.

---

### **Email and Internet**

- Email and internet.

---

### **Multitasking**

- Handle multiple responsibilities simultaneously.

---

### **Imaging Procedures**

- Imaging Procedures.

---

### **Injury Prevention**

- Injury prevention theories and strategies.

---

### **Diagnostic Testing**

- Laboratory diagnostic tests.

---

### **Learning**

- Learn quickly and through multiple channels.

---

### **Data and Reports**

- Manipulate data and develop reports.

---

**Filing Systems**

- Organize and maintain file systems.

---

**Pharmaceutical Terminology**

- Pharmaceutical terminology, generic and trade names, and ICD coding.

---

**Process Improvement**

- Quality improvement processes.

---

**Reading Comprehension**

- Reading comprehension.

---

**Problem Solving**

- Solve problems by analyzing information and using logic to address issues and problems.

---

**Spreadsheet Management**

- Spreadsheet development and management.

---

**Diagnostic Terminology**

- Terminology used in diagnosis and classification of illnesses, injuries, and disabilities.

---

**Time Management**

- Time management.

---

**Health Information Management**

- Types of health information and the rules and regulations surrounding their use.

---

**Word Processing**

- Word processing software.

---

**Independent Work**

- Work independently with minimal supervision.

---

**Equal Opportunity Employer**

It is the policy of Franciscan Alliance to provide equal employment to its employees and qualified applicants for employment as otherwise required by an applicable local, state or Federal law. Franciscan Alliance reserves a Right of Conscience objection in the event that local, state or Federal ordinances violate its values and the free exercise of its religious rights. Franciscan Alliance is committed to equal employment opportunities.

**Employee Statement of Understanding**

To perform this job successfully, an individual must be able to perform each of the essential job functions satisfactorily. The requirements listed above are representative of the knowledge, skills, minimum education, training, licensure, experience and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions of this job.

Coworkers will be responsible for maintaining the job specific core competencies in the essential job functions and the related competency checklists, where applicable, defining department specific needs.

I have read and understand the job description for my position. I am able to perform all of the essential functions of this position.

I understand that I am responsible for other duties as assigned.

I understand that my job description does not create a contract of employment or alter the at-will nature of my employment.

I agree to comply with the corporate compliance policy and all laws, rules, regulations and standards of conduct relating to my position. As an employee, I understand my duty to report any suspected violations of the law, or the standards of conduct, to my immediate supervisor.

As an employee, I will strive to uphold the mission and vision of the organization. I understand that all employees are required to adhere to the values in all their interactions with customers and fellow coworkers.

## Job Description

**Job Title:** Trauma Analyst

**FLSA Classification:** Exempt

**Job Code:** 701462

**Pay Grade:**

**Version:** v.2019.04.10

**Job Class:** Non Manager

**Job Family:** Emergency Medical Services

**Differential Group:** Not Eligible

### General Summary:

The Trauma Analyst serves as the data expert for the trauma registry. This position works both independently and in collaboration with the trauma program manager, indirectly to the trauma medical director and other members of the Healthcare team and the management staff.

### Mission and Philosophy Statement

The health ministry of Franciscan Alliance, Inc. (Franciscan) is a continuation of the healing ministry of Jesus Christ and is carried out in our Franciscan tradition by the Sisters, coworkers, physicians, volunteers, and boards of each institution of the health system. Each Franciscan Alliance coworker acknowledges this corporate health ministry and shares responsibility with other System coworkers for implementation of the Sisters' mission and philosophy in the work performed throughout this corporate ministry.

### Franciscan Values

Our physicians and coworkers follow the values established by our founding congregation, the Sisters of St. Francis of Perpetual Adoration.

#### Respect for life

Each person is treated with such joy, respect, dignity, fairness and compassion that he or she is consciously aware of being loved. Therefore, each coworker:

- Values life
- Engages others with dignity & respect
- Demonstrates active listening
- Honors confidentiality
- Affirms others
- Respects diversity
- Treats people equally

#### Fidelity to our mission

We show loyalty and pride in Franciscan Alliance through joy and respect in ministering to our patients, visitors, and coworkers. Therefore, each coworker:

- Is committed to mission and values
- Is loyal to self, coworkers and those served
- Takes pride in teamwork
- Consistently follows through
- Balances budget

- Is responsible for resources allotted
- Operates equipment respectfully

#### **Compassionate concern**

We provide care and services with openness and concern for the welfare of the individual especially the aged, the poor, and disabled. Therefore, each coworker:

- Is empathic towards others
- Encourages people encountered
- Shows concern for others
- Advocates for the marginalized
- Actively listens
- Honors privacy
- Treats others respectfully
- Considers needs of others
- Values contribution of others
- Utilizes AIDET to improve communications

#### **Joyful service**

The Franciscan presence at Franciscan Alliance expresses itself in joyful availability, compassionate, respectful care and stewardship and loyalty to our mission. Therefore, each coworker:

- Projects a good attitude
- Easily engages others
- Makes people feel special
- Makes others comfortable
- Exceeds expectations
- Lives with hope
- Is not afraid of failure
- Is proactive in addressing concerns
- Is passionate about their work
- Takes pride in appearance
- Is grateful for all things

#### **Christian stewardship**

We justify and fairly allocate human, spiritual, physical and financial resources, respectful of the individual responsive to the needs of society, and consistent with church teachings. Therefore, each coworker:

- Shares talents
- Is dependable
- Anticipates needs
- Is punctual
- Is goal driven
- Is fiscally responsible

### **Essential Job Functions/Competencies**

#### **Data Management**

- Analyzes registry data on the trauma patient population; identifying trends for performance improvement.

#### **Meetings & Boards**

- Coordinate preparation for trauma designation site visit.

#### **Data Management**

- Maintains the trauma-specific database.

#### **Regulatory Compliance**

- Monitors and maintains compliance with statewide trauma system regulatory requirements.

#### **Data Management**

- Monitors data quality and performs data validation on a routine basis, adhering to regulatory body definitions and guidelines.

#### **Patient Care**

- Monitors trauma patient outcomes and evaluates for trends.

#### **Meetings & Boards**

- Participate in Statewide and Regional trauma meetings, in person or virtually.

#### **Data Management**

- Performs the abstraction of medical records for data elements.

#### **Data Management**

- Prepares reports from trauma registry.

### **Certifications, Licensures or Registry Requirements**

<b>Certifications, Licensures or Registry</b>	<b>Preferred/Required</b>	<b>Qualifiers</b>	<b>State</b>
<b>Certified Specialist in Trauma Registry (CSTR)</b>	Required	Within 24 Months	
<b>Association of the Advancement of Automotive Medicine Injury scaling Course</b>	Required	Within 12 months	
<b>ATS Trauma Registrars Course</b>	Required	Within 12 months	

### **Educational Requirements**

<b>Educational Requirements</b>	<b>Specialization/Program of Study/Exceptions</b>	<b>Preferred/Required</b>
<b>Associate's Degree</b>	Health related field	Required
<b>Bachelor's Degree</b>	Health related field	Preferred

### **Experience Requirement**

<b>Min Years of Experience</b>	<b>Specialization</b>	<b>Required/Preferred</b>
1 year		Required
1 year	ICD coding	Preferred
1 year	AIS/ISS Coding	Preferred
1 year	Microsoft Office	Preferred

### **Required Knowledge, Skills and Abilities**

#### **Personal Accountability**

- Accept personal accountability for deliverables and actions.

#### **Changing Priorities**

- Adapt and respond quickly to changing priorities.

#### **Administrative and Clerical**

- Administrative and clerical procedures and systems such as word processing, managing files and records and other office procedures.

#### **Basic Computer Skills**

- Basic computer software, hardware, and communication devices to perform tasks.

#### **Epidemiology**

- Causes and consequences of illness, injuries, and disabilities.

#### **Diagnostic Procedures**

- Common diagnostic procedures.

#### **Simplification**

- Convey complex subject matter, simply.

#### **Team Coordination**

- Coordinate teams and delegate work.

#### **Customer Service**

- Customer service skills.

#### **Data Entry**

- Data entry.

#### **Database Software**

- Database software.

#### **Presentations & Public Speaking**

- Deliver presentations and public speaking engagements.

#### **Written Communication**

- Effectively communicate in writing as appropriate for the needs of the audience.

#### **Verbal & Written Communication**

- Effectively communicate verbally and in writing.

#### **Email and Internet**

- Email and internet.

#### **Multitasking**

- Handle multiple responsibilities simultaneously.

#### **Imaging Procedures**

- Imaging Procedures.

#### **Injury Prevention**

- Injury prevention theories and strategies.

#### **Diagnostic Testing**

- Laboratory diagnostic tests.

### **Composure**

- Maintain composure, even in very difficult situations.

---

### **Data and Reports**

- Manipulate data and develop reports.

---

### **Filing Systems**

- Organize and maintain file systems.

---

### **Pharmaceutical Terminology**

- Pharmaceutical terminology, generic and trade names, and ICD coding.

---

### **Prioritizing and Delegating**

- Prioritize and delegate tasks.

---

### **Process Improvement**

- Quality improvement processes.

---

### **Reading Comprehension**

- Reading comprehension.

---

### **Problem Solving**

- Solve problems by analyzing information and using logic to address issues and problems.

---

### **Spreadsheet Management**

- Spreadsheet development and management.

---

### **Diagnostic Terminology**

- Terminology used in diagnosis and classification of illnesses, injuries, and disabilities.

---

### **Health Information Management**

- Types of health information and the rules and regulations surrounding their use.

---

### **Word Processing**

- Word processing software.

---

### **Independent Work**

- Work independently with minimal supervision.

AIS Certification Board

March 29, 2019

MICHAEL ALAN CARROLL

Dear MICHAEL ALAN CARROLL:

Congratulations! You have passed the Certification Examination for AIS Coding Specialists. You are now entitled to use the letters CAISS after your name and are recognized among health care professionals as a Certified AIS Specialist.

It is the belief of the AIS Certification Board that it is vital for those engaged in AIS coding to maintain current knowledge of injury coding and its rules and guidelines. Consequently, your certification will remain in effect for five years. Before the end of this five year period, your certification may be renewed by successfully completing the Certification examination again. You will receive your certificate within the next 4-6 weeks. If you would like notification of your achievement forwarded to a supervisor or administrator of your program, please send their names, title and address to [redacted] and I will be happy to inform them.

Again, congratulations and best wishes for your continued success.

Sincerely,

Amy L. Brammer, MSN, RN, TNS, CEN, CSTR, CAISS  
Chair, AIS Certification Board

AIS Certification Board

4373-2035

CONGRATULATIONS. The Professional Testing Corporation is pleased to inform you that you have passed the Certification Examination for AIS Coding Specialists with a score of 226 of 250. Passing score as set by AISC.B is 188.

## Certification Examination for AIS Coding Specialists March 2019

### Your Area Scores

Anatomy	50 of 50
Medical Terminology, ICD-10, ICD-9, CPT, HCPCS, DRG, and ICD-11	24 of 25
Coding Fundamentals	52 of 63
Identification and Application of Coding Guidelines	100 of 100

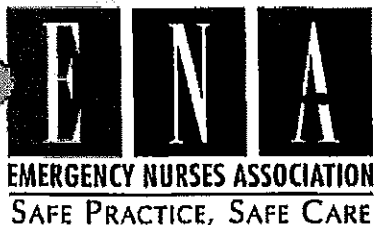

Report prepared for:  
CARROLL, MICHAEL ALAN

This breakdown is intended only to provide feedback on the general performance in each domain area and should only be used as a guide. By comparing your scores in each area to the maximum possible score in each area, it may help assess strengths and weaknesses. Area scores are not used to determine pass/fail decisions. The examination is designed to provide a consistent and precise determination of your overall performance and is not designed to provide complete information regarding your performance in each area.

Applicability: Franciscan Health  
Indianapolis

## Tiered Trauma Team Activation Policy

9/12/16 Franciscan Alliance hospital facility names were changed. See Hospital Listing document for new name changes and previous names.

### Keywords:

Injury, trauma alert

### Purpose:

To define clinical criteria needed in order to activate a team of staff and physicians / allied health professional (AHP) to respond to patients with a mechanism of injury that meet the American College of Surgeons-Committee on Trauma (ACS-COT) guidelines for trauma team activation.

This document meets ACS-COT criteria deficiency 5-13, 5-14, 5-15

### Scope:

Indianapolis Campus Emergency Department

### Responsible Persons:

Registered Nurse (RN); Emergency Department Physicians, Physicians' Assistants (PA's), Nurse Practitioners (NP's); General Surgeon; Trauma Surgeon; Respiratory Therapist; Rapid Response Registered Nurse; Patient Access; Health Unit Coordinator (HUC); Chaplain; Telecommunications Operator, Ancillary services as needed.

### Definitions:

- A. Trauma: An injury to human tissues and organs resulting from the transfer of energy from the environment. Injuries are caused by some form of energy that is beyond the body's resilience to tolerate.<sup>2</sup>
- B. Trauma Team: A team of medical personnel who responds when a patient presents to the emergency department with a mechanism of injury that requires trauma team activation as outlined by the ACS-COT guidelines.

The Trauma Team will be activated by an Emergency Department RN or an Emergency Department physician. Mechanism of injury in addition to pre-hospital report and field triage from EMS should be used to guide levels of activation.<sup>1</sup>

65

## Procedure:

Franciscan Health will utilize a two tiered trauma team activation in accordance with ACS-COT guidelines based on mechanism of injury. These criteria are to be used as a guideline. The Trauma Team may be activated for other situations that arise.

A. A Full Trauma Team criteria ("Trauma Red") will be called on patients who sustain injury with any of the following: (\*\*ACS defined minimum criteria for full trauma team activation<sup>1</sup>).

1. Airway
  - Unable to adequately ventilate intubated or assisted ventilation.
2. Breathing
  - a. Respiratory rate less than 10 or greater than 29 breaths per minute.
  - b. Any sign of respiratory insufficiency (i.e. hypoxia, accessory muscle use, grunting).
  - c. Needle chest decompression.
3. Circulation
  - a. Confirmed Systolic Blood Pressure (SBP) less than 90 mmHg at any time in adults or Blood Pressure (BP) low for age in a child (SBP below minimum calculation: less than  $70 + 2 \times [\text{age in years}]$ ).<sup>1\*\*</sup>
  - b. Any sign of abnormal perfusion.
4. Neurologic Deficit
  - a. Glasgow Coma Scale (GCS) less than or equal to 13 with mechanism attributed to trauma.<sup>1\*\*</sup>
  - b. Alert, verbal, pain unconscious (AVPU): responsive to pain or unresponsive.
5. Deterioration of previous stable patient.
6. Penetrating injuries to the head, neck, torso, or extremities proximal to the elbow / knee.<sup>1\*\*</sup>
7. Open or depressed skull fracture.
8. Extremity paralysis suggestive of suspected spinal cord injury.
9. Flail chest.
10. Unstable pelvic fracture.
11. Amputation proximal to the wrist or ankle.
12. Two (2) or more proximal long bone fractures (humerus or femur).
13. Crushed, degloved, or mangled extremity.
14. Victim of hanging who meet Trauma Red category criteria.
15. Burns greater than 15% total body surface area (TBSA) (partial and full thickness) and / or inhalation injury or high voltage (greater than 1,000 volts) electrical injury.
16. Transfer in patients receiving blood to maintain vital signs.<sup>1\*\*</sup>
17. Intubated patients transferred from scene or patients who have respiratory compromise or are in need of an emergent airway.<sup>\*\*</sup>
  - **Special Note:** Includes intubated patients who are transferred from another facility with ongoing

respiratory compromise (does not include patients intubated at another facility who are now stable from a respiratory standpoint).<sup>1\*\*</sup>

18. Emergency physicians' discretion.<sup>1\*\*</sup>

B. A Limited Trauma Team Criteria ("Trauma Yellow") will be called on patients who sustain injury with any of the following mechanism of injury:

1. Falls; adult greater than 20 feet; child greater than 10 feet, or 3 times their height.
2. Fall from any height if patient is on anticoagulants (excluding aspirin).
3. High-risk auto crash with:
  - a. Intrusion of vehicle greater than 12 inches in occupant compartment; greater than 18 inches in other site.
  - b. Ejection (partial or complete) from automobile.
  - c. Death in same passenger compartment.
  - d. Vehicle roll-over.
  - e. Prolonged extrication from vehicle.
4. Auto vs. Pedestrian / cyclist thrown, run over, or with significant (greater than 20 mph) impact.
5. Motorcycle crash greater than 20 mph.
6. High-energy dissipation or rapid decelerating incidents (i.e. ejection from motorcycle, all terrain vehicle, animal; striking fixed object with momentum; blast or explosion).
7. Drowning.
8. Failed hanging / strangulation.
9. Blunt abdominal injury with firm or distended abdomen or with seatbelt sign.
10. Emergency Medical Services provider judgment.
11. Emergency physicians' discretion.

- **Special Note:** If none of the Trauma Red or Trauma Yellow criteria apply, evaluate the patient for a trauma consult.

C. If the patient meets the criteria for a Trauma Red, the Emergency Department (ED) RN or HUC will call the operator at "44", indicate a Trauma Red (full) trauma team activation, patient's name, patient location, and call back number.

- **Special Note:** Digital page is sent out via operator. Trauma activation sends a page to: General / trauma surgeon on call, trauma program manager, trauma analyst, chaplain, radiology, respiratory therapy, and others as deemed necessary.

D. A trauma team activation may be downgraded by a physician within 15 minutes of the patient arrival with the following criteria.<sup>3</sup>

1. Primary and secondary assessment complete
2. Stable airway
3. Hemodynamic stability
4. No penetrating injury
5. Patient has GCS 15

6. No distracting injuries

E. The following may be ordered per this policy:

1. POCT glucose
2. POCT creatinine
3. CBC
4. CMP
5. Lipase
6. PT-INR
7. PTT
8. Type and Screen
9. Alcohol, serum
10. Urine Drug Screen
11. Human chorionic gonadotropin (hCG), urine - if female of childbearing age
12. Portable chest x-ray AP only - indication "trauma"
13. 12-lead EKG - indication "trauma"

## Documentation:

- A. Document all assessments / interventions on electronic / unit specific flow sheet.
- B. Document all teaching on electronic / paper multidisciplinary patient teaching record.

# Trauma Surgeon Response Times

**Trauma Surgeon response times:** Evidence must be submitted that response times for the Trauma Surgeon are as defined by the Optimal Resources document of the American College of Surgeons. Also, there must be a written letter of commitment, signed by the Trauma Medical Director, that is included as part of the hospital's application. There must be evidence that a trauma surgeon is a member of the hospital's disaster committee. All trauma surgeons on the call panel must have successfully completed ATLS at least once.

a. **Documentation required:**

- I. Individual written statements of support of the trauma program from all participating trauma surgeons, orthopedic surgeons, and neurosurgeons on the call panel, including signature by Trauma Medical Director.
- II. Complete Surgeon Response Time spreadsheet provided by ISDH Designation Subcommittee.
- III. Letter from Disaster Committee Chairperson validating a trauma surgeons participation and include record of attendance from past year.
- iv. Copies of past three (3) months general surgery call coverage to show proof of continuous coverage.
- v. Copies of ATLS cards for each general surgeon on the call schedule.
- vi. Copies board certification status for each general surgeon on the call schedule.

Evidence:

- i. Letters of commitment
  - a. General/trauma surgeons
  - b. Orthopedic surgeons
  - c. Neurosurgeons
- ii. Surgeon Response Time Spreadsheet
- iii. Disaster Committee Chairperson – record of attendance
- iv. October – December 2019 general surgery call coverage
- v. ATLS cards
  - a. Edwards
  - b. King
  - c. Libke
  - d. Mandelbaum
  - e. Murage
  - f. Seudeal
  - g. Wanko Mboumi
- vi. Board Certification Status
  - a. Edwards
  - b. King
  - c. Libke
  - d. Mandelbaum
  - e. Murage
  - f. Seudeal
  - g. Wanko Mboumi

### Commitment of General/Trauma Surgeons

Franciscan Health Indianapolis (FHIN) is committed to becoming a verified Level III Trauma Center through the American College of Surgeons.

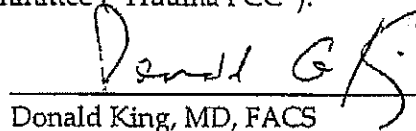

With this commitment, Franciscan Physician Network Indy Southside Surgical acknowledges that if verification is not pursued within one (1) year of submitting the "in the ACS verification process" application and/or does not achieve ACS verification within two (2) years of the granting of the "in the ACS verification process" status that the hospital's "in the ACS verification process" will be immediately be revoked, become null and void and have no effect whatsoever.

The general/trauma surgeons acknowledge and commit to the criterion expectations for a Level III Trauma Center. This includes, but not limited to credentialing, certification, continuing education, and adequate involvement in performance improvement. The multidisciplinary trauma performance improvement program has the authority to evaluate care across disciplines, identify opportunities for improvement, and implement corrective actions.

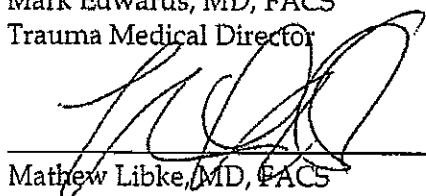

To this end, the general/trauma surgeons will be committed to a minimum of 50% attendance at the Trauma Operational Process Performance Improvement Committee ("TOPI") and a minimum of 50% attendance at the Trauma Patient Care Committee ("Trauma PCC").

### Commitment of Neurosurgical Physicians

Franciscan Health Indianapolis is committed to becoming a verified Level III Trauma Center through the American College of Surgeons.

With this commitment, Neurosurgical Specialists acknowledges that if verification is not pursued within one (1) year of submitting the "in the ACS verification process" application and/or does not achieve ACS verification within two (2) years of the granting of the "in the ACS verification process" status that the hospital's "in the ACS verification process" will be immediately be revoked, become null and void and have no effect whatsoever.

A board certified neurosurgical liaison and trauma surgeons acknowledge and commit to the criterion expectations for a Level III Trauma Center. This includes, but not limited to credentialing, certification, and adequate involvement in performance improvement. The multidisciplinary trauma performance improvement program has the authority to evaluate care across disciplines, identify opportunities for improvement, and implement corrective actions.

To this end, a representative of neurosurgical medicine will be committed to a minimum of 50% attendance at the Trauma Operational Process Performance Improvement Committee ("TOPI") and a minimum of 50% attendance at the Trauma Patient Care Committee ("Trauma PCC") one pre-determined alternate allowed to attend the meetings in lieu of the liaison.

December 20, 2019

Dear Indiana State Trauma Care Committee:

I am the Disaster Management Coordinator for Franciscan Health Central Indiana Region. This region includes hospital facilities in Indianapolis, Mooresville, and Carmel. I am sending this letter to assist Franciscan Health in their application and verification process.

Dr. Mark Edwards participates in the Emergency Management Committee - Indianapolis as the trauma surgeon representative. Since the committee only meets 6 times a year, we are doing more virtual review of plans, policies, procedures and after action reviews to assist in the volume of emergency management process improvement requirements and real world events. When unable to attend, he does review the meeting minutes and materials and provides feedback for program enhancement.

Please find included in this letter a schedule of events from 2019 and 2020, highlighting our scheduled meetings, drills, and some specifics to be focused on through the programmatic year.

Sincerely,

Kara M. Solomon  
Disaster Management Coordinator  
Franciscan Health Indianapolis, Mooresville, & Carmel

# THE AMERICAN BOARD OF SURGERY

January 3, 2020

Re: Mark Robert Edwards, M.D.

Thank you for your recent inquiry to the American Board of Surgery (ABS) regarding the certification status of the above named surgeon. The specific status of this surgeon with the ABS is listed below.

<b>Surgery</b>	<b>Current Status: Certified Meeting CC Requirements</b>	<b>Certificate Initial Certification Date: March 03, 2008 Reverification Date: December 31, 2020</b>
----------------	--	--

THE REVERIFICATION DATE (ABOVE) IS PROVIDED FOR CREDENTIALING PURPOSES.

As part of the ABS's Continuous Certification Program, Board certification is contingent upon meeting the ongoing requirements of the program. Surgeons who were initially certified and/or took the continuous certification assessment after September 2018 are issued certificates with no end dates to certification. For surgeons without an expiration date on their certification(s), annual primary source verification on or immediately after the reverification date (annually on December 31) is necessary to accurately determine a surgeon's current certification status.

Please inform us immediately if your information differs from what we have supplied above. If you have questions regarding this information, please contact the ABS office.

Jo Buyske, M.D.  
President and CEO

# ABMS® Board Certification Credentials Profile

A service provided by the American Board of Medical Specialties

[New Search](#) | [Search Results](#) | [Email For Feedback](#) | [Save Physician](#) | [Print Profile](#)

To become Board Certified, a physician must achieve expertise in a medical specialty or subspecialty that meets the profession-driven standards and requirements of one (or more) of the 24 ABMS certifying boards. To maintain Board Certification, the certifying boards may require physicians, depending on their date of initial certification, to participate in on-going programs of continuing learning and assessment (Maintenance of Certification) designed to help them remain current in an increasingly complex practice environment.
